

Surgery

Welcome to St. Mary's Surgery Department, central Missouri's most-preferred hospital for major surgery and outpatient surgery. More than 6,400 surgeries were performed at St. Mary's last year, with a commitment to quality that places St. Mary's in the top 10% of hospitals nationwide.

Our experienced team of surgeons, anesthesiologists and nurses work with the latest technology to maximize patient safety and comfort. With more than 50 active surgeons on our medical staff, we offer a full range of procedures – many of which use minimally invasive techniques with the smallest of incisions to minimize pain and speed recovery.
