

Women & Children Services

Most preferred by mothers in Jefferson City and surrounding areas, St. Mary's Health Center is considered the baby hospital in Jefferson City. Since 1905, our staff has helped bring thousands of babies into the world! It's the perfect environment for babies to enter the world into the love and safety of family.

St. Mary's all-private labor and delivery rooms are warm and homelike, yet supported by the immediate availability of the latest technology. When laboring moms need help managing their pain, our 24/7 team of anesthesiologists is there.

In addition to a Level I nursery, St. Mary's has Jefferson City's only Level II nursery for babies who need special medical attention. Pediatricians with advanced training in neonatology and registered nurses are available to focus attention on babies with special needs.
